-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 03 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ohtani et al. (US 6,470,050) as set forth in the previous office action mailed on 02/09/2009.

### ***Response to Arguments***

3. Applicant's arguments filed 08/10/2009 have been fully considered but they are not persuasive.

The applicant argues that Ohtani does not disclose a test and does not teach or suggest testing whether a second threshold number of pixels changed by at least a third noise threshold and the second threshold being at least two.

The examiner respectfully disagrees with the applicant. It is submitted that Ohtani teaches whether a second threshold number of pixels in the current block changed in pixel value by at least a third noise threshold (72 of fig. 10, fig. 9(b), the change point in each blocks and one block is composed four pixels, wherein the accumulation unit 72 calculates the frequency as the number of change points in one block which is composed of a prescribed number of pixels, col. 13, lines 15-17, this disclosure suggests a prescribed number of pixels as a second threshold

number of pixels by at least third noise threshold as the number of change points in one block); and the second threshold being at least two (col. 13, lines 15-17, a prescribed number of pixels is the second threshold number of pixels; one block composes of the prescribed number of pixels and the number of pixels in one block can be set to any number other than 4, col. 13, lines 34-49, so one skilled in the art would set the prescribed number of pixels is two). In view of the discussion above, the claimed features are unpatentable over Ohtani.

The arguments of Kago are persuasive and the rejection has been withdrawn.

#### ***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
